Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/3/2006 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: a person skilled in the art would not have been motivated to modify the disclosures of the applied references to produce a bis- β -hydroxyethyl terephthalate and/or a low condensate thereof having a molar ratio of ethylene glycol to terephthalic acid between 10.6 and 40.5.

An updated search of the prior art failed to uncover a reference that teaches or suggest a bis- β -hydroxyethyl terephthalate and/or a low condensate thereof having a molar ratio of ethylene glycol to terephthalic acid between 10.6 and 40.5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
